RoHS Compliance

Liste De Technologies

SMART-SOURCING

Liste De offers client an edge with value for services with their captive knowledge process outsourcing services in Bangalore, India. We work with clients to identify RoHS related processes for outsourcing and manage the outsourcing process for the clients.

Liste De's services are aimed towards providing the best cost effective solution to their clients. RoHS directive has already increased production and distribution costs for the clients and we hope to recover some savings for the clients with smart sourcing.

Liste De smart-sourcing can provide online, email and telephone support for data research and lookup for their clients.

COMMITMENT

Liste De is committed to provide its best services by keeping it's knowledge base updated with the latest regulations and updates released. It is committed to work with the clients to help them get through the necessary RoHS and WEEE hurdles as smoothly as possible with complete knowledge and information about the directives from various countries and to ensure their products are on the market with shortest time.

Liste De will tailor their services to meet the needs of the clients and work with them to adapt any solutions to their existing infrastructure and environment.
